Natürlich und gesund genießen.

Neukirchen-Vluyn, January 2025

agaSAAT GmbH as an exhibitor at Biofach 2025 in Nuremberg - visit us at the joint stand of the state of North Rhine-Westphalia in Hall 7-326

From February 11th to 14th, 2025, the international organic community will meet at BIOFACH, the **world's leading trade fair for organic food**, on site in Nuremberg. At their annual trade fair highlight, like-minded people immerse themselves in the latest innovations and trends; they benefit from information and knowledge as well as real encounters and networking, enjoy with all their senses and shape the future of the organic industry together.

The BIOFACH Congress in 2025 will focus on three central levers for a secure food supply: **sustainability** as a controlling criterion in the financial world, the public sector as a driver for more organic food and the marketing of organic food with convincing stories. Other highlights include **innovations, trends** and newcomers, product range-specific experience worlds, the unpackaged product range and target group-oriented forums, for example for out-of-home catering or specialist retailers.
