agaSAAT GmbH – Introduction DIESEL surcharge by 15.10.26

As you are likely aware, fuel prices have risen significantly again in recent weeks due to current geopolitical developments. This trend is now clearly noticeable in all areas of daily life.

Therefore, we find ourselves compelled to introduce a diesel surcharge effective October 15th, 2026 to offset the resulting additional costs.

Initially we deliberately refrained from immediately passing on the increased fuel costs - assuming the situation was temporary. Unfortunately, the expected easing of prices has not materialized, and there are no signs of relief in the short to medium term.

Despite the continued financial strain on our company, we did not immediately pass on the additional costs incurred during this period. Unfortunately continuing this practice is no longer economically viable under current conditions.

Starting October 15th, 2026, we will apply a DIESEL surcharge of **EUR 0.530 per 100 kg** to all incoming orders in order to share this additional cost burden.

We greatly value our long-standing partnership with you and we look forward to continue it. For this special reason, it is important for us to communicate the current situation openly and transparently and to move forward together on an economically sustainable basis.

We kindly ask for your understanding regarding this necessary adjustment and thank you for your trust and continued cooperation.

The agaSAAT team and your direct contacts are available to answer any questions you may have. You can reach us at +49 (0)2845-91460.
